# Effex™

EFX100

## Product Description

**Dupli-Color® Effex™** gives non-metallic paint a brilliant glitter effect. Available as a clear top coat, which allows the base color it is applied over to shine through. It is formulated with tiny, brilliant-metallic particles that change colors when exposed to various angles of light.

## Product Characteristics

**Color:** Clear

**Finish:** Metallic

## Properties

**Product Weight:** 6.28 lb/gal
**Flash Point:** Propellant < 0° F

## Preferred Application

Dupli-Color Effex provides the optimum performance when this application method is followed.

| **Prep** | PW100 | Prep Wipe |
| | CM541 | Grease & Wax Remover |
| **Prime** | CP199 | Adhesion Promoter |
| **Coat** | EFX100 | Clear Effex |

***Refer to the application box for more specific instructions!***

## Uses

Body Molding, Hood Scoop, Mirror, Spoiler, & other Accessories.

*Surfaces:*

Metal, Fiberglass, & Plastic.

## Application

*Prepare surface by removing dirt, rust, grease, wax, etc. For best results, use a Dupli-Color Prep Wipe (PW100) or Grease & Wax Remover to clean surface.*

For maximum adhesion, use Dupli-Color Adhesion Promoter (CP199) or lightly scuff sand surface with 1000 grit sand-paper.

Use at temperatures between 68°-92° F, and when humidity is less than 50%.

Shake can vigorously for one full minute after mixing ball moves freely. After each minute of use, the can needs to be shaken for an additional 10 seconds. To spray, hold can 8 to 10 inches from the surface to be painted. Spray with rapid movements back and forth, applying light even coats. Applying heavy coats will produce runs and sags. Covers approximately 12-14 square feet.

## Packaging

**Fill Weight:** 7 oz
**Per Case:** 6 cans
**Case Weight:** 4.06 lbs
**Cases/Pallet:** 156
**Units/Pallet:** 936 cans
